Summary

Backend Developer with 2 years of hands-on experience specializing in ASP.NET ➤ Core and Web API development. Skilled in building secure RESTful APIs, implementing JWT authentication, and managing databases with SQL Server and PostgreSQL. Strong foundation in Clean Architecture, SOLID principles, and Dependency Injection. Experienced in frontend integration with Angular and using Git for version control. A fast learner and collaborative team player committed to delivering scalable and efficient backend solutions.

Education

2020 – 2024

Bachelor of Science in Computer and Information Science
Ain Shams University (ASU)

Experience

08/2026 – Present

Backend Software Engineer, ASP.NET Developer
GPS Education

- Enhancing planning and production systems within the manufacturing environment.
- Developing a Help Desk Ticketing System to streamline IT support operations, including ticket management, assignment, tracking, and issue resolution.

07/2024 – 07/2026

Coding and Technical Instructor (Full-time)
iSchool

- Teach programming and development fundamentals to students aged 6–18 using interactive, project based learning.
- Design and develop simple applications and games to help students learn through real-world projects.
- Guide students in building, testing, and debugging projects to strengthen problem-solving skills.
- Support students with continuous feedback to improve coding skills and logical thinking.

10/2025 – 12/2025

.NET Developer Intern
SpaceTech

- Assisted in developing and maintaining .NET applications, implementing backend logic, and creating RESTful APIs for seamless system integration.
- Collaborated with front-end developers to integrate user-facing elements with server-side logic.
- Optimized application performance by identifying bottlenecks and implementing efficient solutions.

07/2025 – 09/2025

Technical Instructor (Part-time)
Pyramakrez

- Taught programming and development fundamentals to students aged 6–18 using interactive, project-based learning.
- Designed and developed simple applications to help students learn through hands-on, real-world projects.

04/2025 – 06/2025

Backend Odoo Developer Intern
Philstia Consultant

- Integrated third-party APIs and implemented custom features to enhance Odoo functionality.
- Troubleshoot and resolved system issues, improving overall application performance and reliability.

Skills

Backend Development

ASP.NET Core/Web API, Spring Boot, JWT Authentication, RESTful APIs, Clean Architecture, Dependency Injection, DTOS, Generic Repository Pattern, SOLID Principles

Database & ORM

SQL Server, PostgreSQL, Entity Framework, Spring Data JPA

Frontend Integration

Angular (13-19), Standalone Components, AuthGuard, HttpClient, RxJS

Dev Tools & Practices

Git, GitHub, Postman, Version Control, N-tier Architecture, OOP, Agile Methodologies

Projects

TechTrack ➤

- Developed an ASP.NET Web API interview-prep platform using RESTful APIs, JWT authentication, Dependency Injection, N-Tier architecture, Entity Framework, SQL Server, and Git/GitHub, following SOLID principles.

Recipe Hub ➤

- Developed the backend of a Recipe Hub application using JWT authentication, role-based access control, DTOs, dependency injection, and RESTful APIs, following clean architecture principles; tested endpoints and flows using Postman.

Courier Management System ↗

- Developed a Courier Management System using ASP.NET Web API, RESTful APIs, N-Tier architecture, JWT authentication, Entity Framework, SQL Server, Dependency Injection, and SOLID principles enhancing sender-receiver communication.

Clinic Management System ↗

- Developed doctor appointments, radiology, lab, and billing modules using ASP.NET Web API, N-Tier architecture, EF, SQL Server, Dependency Injection, and SOLID principles.

Arabic Sign Language Recognition ↗

- Developed a web application that converts sign language gestures into text using webcam technology and AI models integrated with Flask Framework, machine learning techniques, and version control using Git/GitHub.

Extracurricular

2023 – 2024

HR Director

- Led the HR team and managed recruitment and workforce planning activities.
- Developed HR policies and improved internal communication and team coordination.

2022 – 2023

HR Member

- Supported recruitment, onboarding, and interview coordination processes.
- Assisted in organizing internal events and maintaining HR records.
